GOVERNOR FISHBACK.

Reason for Suggesting a Convention of Southern Executives.

(By telegraph to the Dispatch.) LITTLE ROOK, AME, April 3.—Governor Fishback, who projected the movement for a southern Governors' conference, at Richmond, Va., on the 12th instant, has replied as follows to the letter from Governor McKinney sent out from Richmond March 28th.

March 29th:

"Dear Sir.—In reply to your favor of the 29th ultimo I respectfully refer you to my original circular letter to the several Governors. To this I beg to add that since the discoveries and inventions in steam and electricity the accumulations of wealth have increased at an unprecedented rate throughout the world. The low rate of interest in the great money centres and the eagerness with which national securities bearing as low as 2 per cent. interest

high official capacity will be accepted as true.

"It is for this reason that I suggested the convention of southern Governors. It seems to me that the convention should resolve to have each Governor prepare a paper over his own signature in relation to his own State, either while in Richmond or after his return to his own State, and to have them all published in pamphlet form to be distributed by the thousand at Chicago. They could not fail of signally beneficial results.

"Kindred matters will readily suggest themselves during the meeting."

INTERSTATE COMMERCE.

Hearing of the Commission as to Diseriminating Truck Rates.

(By telegraph to the Dispatch.)

CHARLESTON, S. C., April 3.—A. B. Morrison, Martin Knapp, and L. C. Clements, of the Interstate Commerce Commission, had a session here lasting all day and well into the night. They heard the complaint of the Truck-Farmers' Association of Charleston, alleging unequal distribution of tariff on perishable freights by the railroads between Charleston and New York, Both the farmers and the railroads were represented by counsel. Officers of the Richmond and Danville railroad and the Atlantic Coast Line were present. The entire day was consumed in the taking of the farmers was that the freight rates charged on vegetables from Charleston to New York were higher in proportion than those charged from Norfolk to New York. The commission is still in session, and will be occupied in the hearing probably through to-morrow.

[Special telegram to the Dispatch.]

UNIVERSITY OF VIRGINIA, April 3.—Yale won to-day's game from the 'Varsity nine by the timely use of the stick aided by the home team's errors. Parker was in the box for the home team and pitched a winning game, except that with the usual "Yale" luck, the visitors bunched their hits. He was astriffe wild, but used his head and curlets with good effect and fielded his position beautifully. Davis, for Yale, pitched well, but was hit harder than Parker, though he was fortunate in keeping the hits scattered. The Yale men showed great improvement in fielding, while the home team's errors were numerous and costly.

THE TEAR'S APPROPRIATIONS.

Mr. Carneal, from the Committee on Finance, submitted the budget—an ordinance, cancelling appropriations for 1892-93 and making appropriations for 1892-93. And making appropriations for 1892-94. Following is a statement of the principal items, showing when there have been increases and decreases:

Interest and redemption, \$423,000—an increase of \$5,000; assessment of taxes, \$6,300—an increase of \$5,000; assessment of taxes, because of \$50,000; assessment of taxes, because of the office of the construction of a keeper's house at River View.

The same appropriation is made for the appropriation for the payroll \$202, and the appropriation for the police of taxes

The same sum of \$17,180 is allowed to the general expenses of the Fire Department this year, but the pay-roll account is increased from \$54,254 to \$54,799. The total sum for the Fire-Alarm Department is \$6,920. The Gas Department gets \$170,717 against \$159,100 hast year. This increase is in amount for extension and in oil account. In the expense account for grounds and buildings the appropriation is reduced from \$16,000 to \$12,000. The aggregate appropriation for the Health Department is \$40,500, a decrease of \$500. The James-river appropriation is increased from \$10,600 to \$11,600. Some slight changes are made in the amounts given to the market-houses, making a decrease of \$1,000. The Mechanics' Institute is given to the market-houses, making a decrease of \$1,000. The Mechanics' Institute is given the usual \$6,000.

The appropriations for the military organizations remain the same and aggregate \$3,550. In the stationery and printing allowance there is an increase of \$400. FOR FIRE AND GAS.

THE AMOUNT FOR STREETS.

In the Street Department the general account gets \$60,000, as compared with \$85,000 last year, with an extra allowance of \$20,000 for opening streets in Lee District. The sum set aside for pay-rolls in the Engineer's Department remains unchanged, \$12,800, and there is no change in the amount allowed for hands and carts, which is \$8,000. Hands and carts and roller-and-crusher pay-rolls get \$30,000, an increase of \$2,000. For sidewalk-paying the appropriation is \$18,000, a decrease of \$2,000. The fund for paying alleys for owners is swollen to \$4,000, an increase of \$1,000. The Water Department gets \$50,541.25, an increase of \$2,600, which occurs principally in the pump-house account and the reservoir funds.

THE TOTAL AMOUNT.

The total amount of the budget for the year is \$1,372,375-a larger sum than that of last year by \$0,750. This estimate was based on the receipts of the city for the fiscal year 1892-93, it being calculated that the revenues from certain sources would be slightly increased. While the city expects to get about \$9,000 less from taxes, it is approximated that her receipts will be increased; From licenses about \$3,000; redeemed lots, about \$2,300; sale of gas, about \$9,000; water rents, \$6,000, etc., etc. The total amount of the budget for the

LEE DISTRICT. Mr. Curtis moved to strike from the

Mr. Curtis moved to strike from the budget the \$20,000 appropriation for opening streets in Lee District.

Mr. W. L. White said the Council could not make a better investment than in granting the \$20,000 and moved that Captain John A. Coke be heard on the part of the property-owners of Lee District.

Mr. White's motion was carried and Captain Coke addressed the body. He sketched the legislation of both the General Assembly and the Council regarding Lee District. The people of Lee District treat any amount that may be granted the district as a temporary loan, that they would pay back with interest. The tax-payers of Lee District had paid into the city treasury \$14,000 last year and would pay that amount with interest this year. He repeated that the \$20,000 would only be a temporary loan, which would be gotten back when the improvements were finished and the assessments could be made. The recommendation of the Finance Committee was simply carrying out the policy of the Council in accepting the act of the Legislature. By virtue of the annexation the city was enabled to issue \$190,000 of bonds. He knew of a dozen houses that would go up in Lee District this year if the appropriation was made. If they struck out the appropriation of \$20,000, did they propose to give back one stiver of the \$16,000 annually received from Lee District? The land was assessed in \$2,000,000. There were a large number of people anxious to build upon the lots, but who would not build without improvements. There was no reason in law, morals, or fair dealing why the people of Lee District should receive less consideration than other citizens.

Mr. Curtis claimed that when Captain

MR. CURTIS RESPONDS. MR. CUBTIS RESPONDS.

Mr. Curtis claimed that when Captain Coke was before the body urging that Loe District be taken into the city he said take us in and we will not ask for a cent. Captain Coke explained that the theory of the bill annexing the district was that the abutting property-owners should pay the expenses of improvements, but the resolution of the Council contemplated a temporary loan to be gotten back by assessment.

Mr. White urged that Richmond would be repaid with interest every dollar expended in Lee District.
Mr. Curtis said he had seen this Lee-District scheme coming. Lee District was a land speculation, and so was the Lee monument.

land speculation, and so was the Lee monument.

Mr. White appealed for the retention of the item in the budget both as an investment and as an act of patriotism. It was a shame, he said, that people visiting Richmond should have to wade through mud and mire to reach the Lee monument.

Mr. Carter also advocated retaining the item in the budget. He thought the appropriation only fair and just to the people of Lee district.

A recorded vote was taken on Mr. Curtis's motion and it was lost—ayes, 7; noes, 20.

The budget as amended was then adopted by a vote of 25 to 2.

Death of Miss Isabella Manson Wallace.

Miss Isabella Manson Wallace died yesterday morning at the residence of her sister, Mrs. Charlotte W. Tapscott, on north Laurel street, opposite Monroe Park.

The deceased was the eldest daughter of that sturdy old Scottish Democrat, the late William Wallace. Esq., who prior to the war was one of the leading wholesaid grocers of the city. She was a soman of an unusually tender and lovable nature, and her fine personal qualities endeared her to those who knew her. She was no less remarkable even after more than seventy years had silvered her hair for the brightness of her conversation and the strength of her mind, and there are few who knew her who will not think of her with a tenderness that is mingled with admiration.

"Me and Jack" Falls Rather Flat.

Yesterday at the Theatre there were afternoon and evening performances of a variety show called "Me and Jack." The farce is on a level with the performances the traveller sees "on the Bowery." The company is made of several ill-costumed, ordinary specialists. Very hard-working, carnest people they are, and some of them are good in their way, but they are out of place in a first-class theatre.
